

The image is a title slide for the Erasmus 3T Project Technology. It features a blue gradient background with several overlapping, semi-transparent circular shapes in various shades of blue. The text is centered and reads "Erasmus 3T Project" on the first line and "Technology" on the second line in a white, sans-serif font.

Erasmus 3T Project  
Technology

## Shared concerns:

- Students learn technology faster than teachers
- Use and impact of smartphones in schools
- Funding technological advancements
- Connectivity
- Equity between classes/schools

# FINLAND

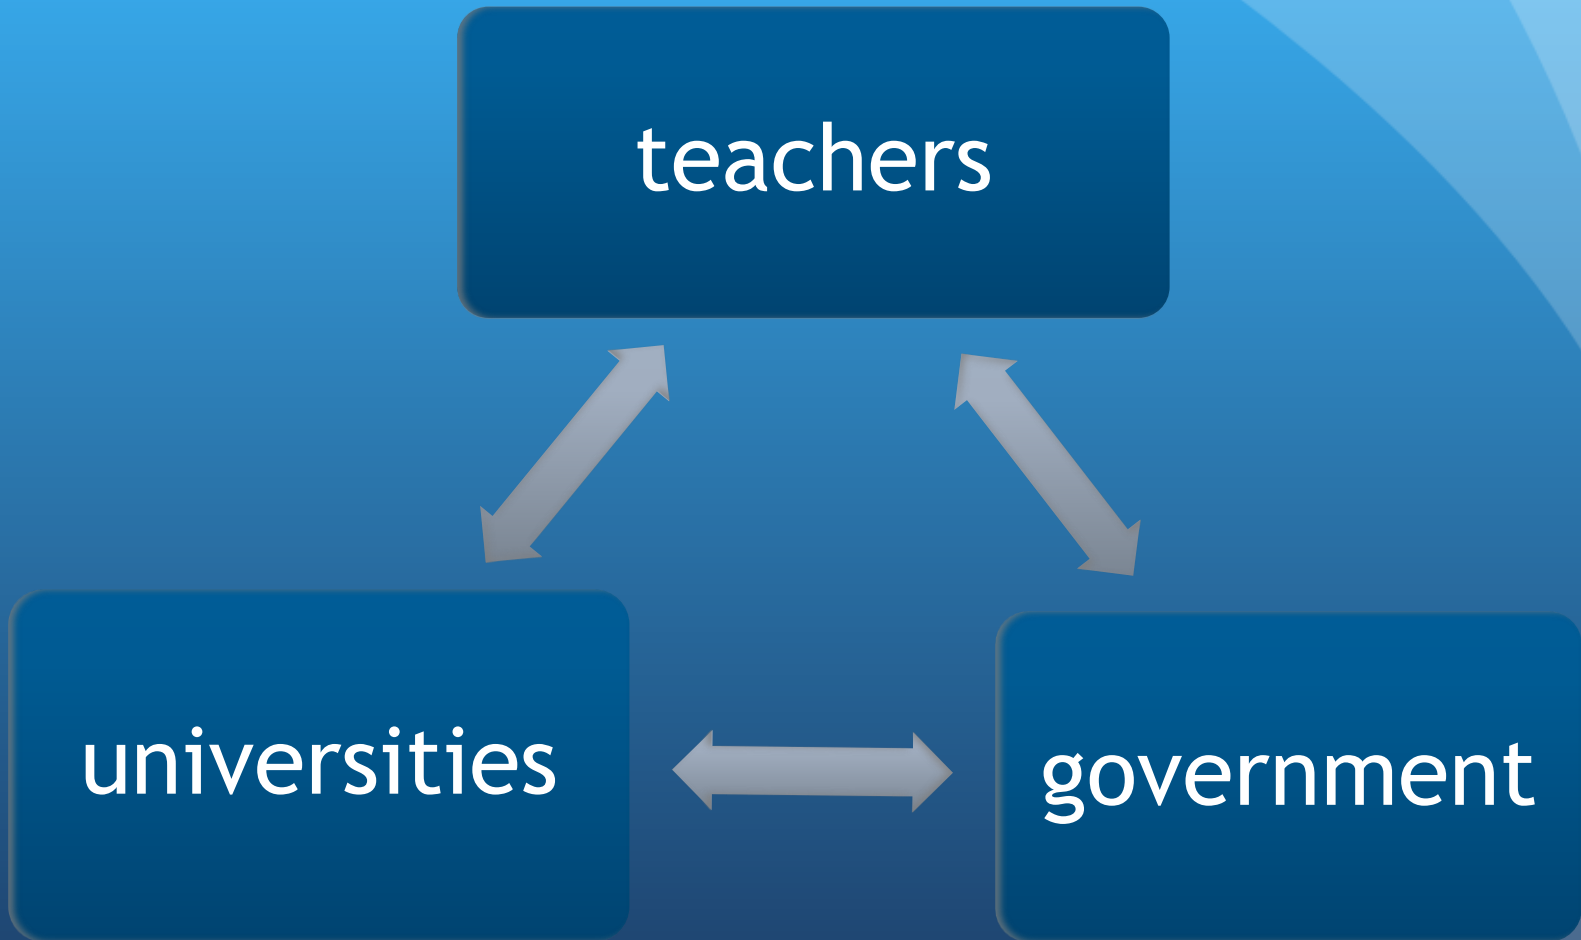

- Fundamental educational principles: proactive not reactive; trust; planned implementation and progression;
- 3 main questions for developing curriculum and pedagogy -

What is happening around us?

Why is it happening?

How do we prepare students for future technological change ?

# Trust

# Strengths

- Broad view of technology -
- Resources
- Teacher talent
- Commitment of time
- INNOKAS
- Managed change

# DENMARK - Strengths

- Connectivity - good WiWi
- Visually appealing on-line resources including assessment
- Embedded use of wide range of devices:

IWB

Laptops

VLE

iPads

smart phones

- Work spaces for technology - Autens
